1. ENVIROFILL

- Round shaped coated sand that helps reduce fluid absorption and improves drainage
- Integrated with anti-microbial that helps control growth of bacteria, mold and odors.
- Non-toxic

2. SILICA SAND

- Most common infill used for turf installation projects
- USGA Approved
- Available in 50 lb bags of 12/20 & 16/30 grit
- Not recommended for pet applications.

3. ZEOFILL

- Perfect accompaniment for coated sand infill
- Helps reduce pet urine odors
- Natural/Organic
- 1 lb / sq ft.

4. PE-51

- Neutralizes and eliminates odors from your outdoor spaces
- Uses powerful and naturally derived microorganisms
- Safe on lawns and landscaping when used as directed
- Non-toxic

5. PRE-EMERGENT

- Weed preventer and Herbicide
- 1 bag treats 10,000 - 14000 sf
- Controls over 40 types of grass & broadleaf weeds

6. PRACTICE GREEN PLASTIC CUP

- Available in White
- 4 1/4 inch wide, as USGA regulation
- Made from PVC plastic

7. PRACTICE GREEN ALUMINUM CUP

- Available in White
- 4 1/4 inch wide, as USGA regulation
- Made from aluminum

8. PUTTING FLAGS

- Available in Red, White and Black & White Checker.
- 6" x 9"
- Made of 400 denier polyester

9. ROD W/ BASE

- Rods available in Solid White or Black & White
- 30" tall and 1/2" in diameter
- Shaft comes with a top handle and a retriever base

10. WEED BARRIER CLOTH ROLL

- 6' x 300' roll of non-woven polypropylene fabric
- UV protected fabric allows air, water, and nutrients to reach plants roots while keeping sunlight out, preventing the growth of weeds.
- 8 year warranty
- Patented lightweight interlocking panel system, easy to handle and fast to install
- Computer monitored molding manufacturing process guarantees dimensional & density consistency
- Thermal insulation & drainage layer that can be installed over permeable/impermeable bases, eliminating cost of frost heave
- 100% recyclable, Carries the coveted Cradle to Cradle Certification

11. SMART PAD BASIC 50MM

- Made in the USA
- Long Lifespan - Remains in place 2 to 3 turf life cycles
- Resistant to mold & chemicals
- Successfully tested to comply with CA Prop 65
- Qualifies for LEED Credits

12. SMART PAD ADVANCED 50MM

ALL OF ABOVE INFO +

13. PERFORATED DRAIN MAT

- 4' x 50' rolls (50 lbs each)
- Creates open-air space void that allows urine and other liquids to be washed down through the turf & infill
- Thickness (ASTM D-4716) 0.40 inch
- Flow (ASTM D-4716) 21 gallons per minute/foot width
- Made in the USA

14. PUTT PAD

- Putting Green pad underlayment
- 50 oz Polyurethane
- Woven polypropylene backing
- 12' x 100'
- Thickness 0.25"
- Density 18 lbs per cu. ft.
- Made in the USA

15. BENDER BOARDS

- 1" x 4" x 20'
- Plastic Board
- Used for separating grass and flowerbeds during turf installations

16. PLASTIC STAKES

- 1" x 2" x 12"
- Stakes are used to anchor the bender board into the ground
- 5 stakes to every bender board approximately

17. UNGALVANIZED NAILS

- Ungalvanized nails rust so it helps anchor the turf in place
- 60d Brite Common 6"
- 40d Brite Common 5"
- 16d Brite Common 3 1/2"

18. SOD WIRE STAPLES

- 9 gauge
- 1000 per box
- Pallet size of 48 boxes
- Used for seaming turf and anchoring down the turf

19. MAPEI ULTRA BOND ADHESIVE

- 1 gallon pail
- Manufacturer recommends Mapei adhesive to be used with Mapei tape
- Fast setting time
- Excellent handling characteristics and superior strength
- Light color
- Meets FIFA standards

20. MAPEI ULTRA BOND REPAIR ADHESIVE

- 29 oz tube
- Small size is great for small repair projects
- Manufacturer recommends Mapei adhesive to be used with Mapei tape
- Fast setting time
- Excellent handling characteristics and superior strength
- Light color
- Meets FIFA standards

21. MAPEI TURF SEAMING TAPE

- 1' x 330'
- Used to seam turf together
- Superior tensile and shear strength
- Perfectly suited to be used with Mapei Ultra Bond adhesives
- Meets FIFA standards
